## **Abstract**

This study aims at exploring the status of the public libraries in basrah province . it also aims at knowing the characteristics of those who benefit from libraries and their satisfaction with them in relation to location , buildings , furniture , supplies ,the library collections the services provided .

Using the descriptive approach and depending on questionnaire to collect data from library users whose number is (120) are the techniques used in this study .

Results of the study show that most of the official staff in public libraries are high school degree holders or below that.

Library users expressed a satisfaction with the official staffing and the places in which the public libraries are located , but they expressed dissatisfaction with library collections and the services provided at the libraries .

The study recommends the following :

\*the need to appoint specialized staffs in information and libraries .

\*Increase the funds credits to enable libraries meet their needs .

\*Establishing sub-libraries in the heavily populated areas to provide library service for a large number of the society.
